FRANCIS PICKENS MILLER

November 16, 1959

Hon. Allen W. Dulles  
Office of Central Intelligence  
Washington, D.C.

Dear Allen:

I have read with great admiration and pleasure your statement before the Joint Economic Committee of the Congress on November 13. It is far and away the best analysis of this subject I have seen. Thank heaven that you are where you are. I only hope that our Government and the Nation as a whole will profit by what you have said before it is too late.

Ever yours,

*Francis*
